

The HD codec bracket model **PM-HDCB** allows you to easily install your video conferencing codec in multiple configurations and locations. Whether you want the codec hidden behind the TV or right out front, left, right or upside down. Its design securely attaches codecs to any of our PM-Series mounts or any wooden/MDF cart while allowing airflow space between the two. Constructed from durable 11ga steel and powder coated black, it completes the HD video conferencing install.
