103324 Multimedia Stand

## Model 103324 Multimedia Stand

This versatile multimedia unit has been designed with functionality as its main characteristic. The top surface is large enough to accommodate up to 32" LCD or plasma screens or for your computer screens, visual presenters or laptops.

It doesn't stop there! There is a slide out keyboard shelf built right into the unit, along with a flip up side shelf. Behind the glass door is a 12 RU equipment rack, an optional fan can be added for additional heat ventilation. Originally designed to meet educational/classroom specifications - where a compact cart was needed with room for maximum multimedia content delivery. The rich feature set up of the 103324 makes it ideal for any multi-function application that requires a smaller footprint.

(Shown with optional  
CAM (Camera/Projector mount)
