PL3070 Plasma/LCD Stand

Model PL3070 Plasma Stand

Need to duplicate the functionality of an OEM dual plasma stand at a more attractive price and have the system roll around from room to room too? Create it with VFI Model PL3070 plasma cart. Add the optional PM-S or PM-D plasma / LCD mount, and the optional TOA speakers, then you've got a roll-about system ready to your videoconferencing codec and other rack mount electronics. Add your own amp to make your roll about system complete!

Hidden behind the removable perforated metal side vents are mounts for 2 TOA panel mount speakers. And the perforated metal sides provide maximum ventilation for any electronics mounted in the standard 14RU rack rails. The PL3070's wider front wheel base adds extra stability for dual monitor configurations and also fits nicely into corners when used with single monitors.

Standard Features Include:

- Ready for VFI Plasma Brackets
- 14 RU rack mount rails (10-32 screws)
- Acrylic locking front door and locking rear access door
- Ready for optional speakers behind removable side panels
- Fits in corners (Single screen only)
- Perforated metal sides for maximum ventilation
- Wide front wheel base for added stability
- Premium casters with front wheels locking
