

CHGQIW/CHGQIB Wireless Charging Station

Thank you for purchasing the Wireless Charging Station. This product installs in any desk, meeting table or other work surface, with the convenience of being able to charge smartphones and tablets without being tethered of having the hassle of finding a power point.

Confirm all hardware is included before you begin assembly. Read these instructions start to finish before beginning installation.

Note: If you cannot understand these instructions or are concerned about safety of the installation contact a qualified contractor or contact AVFI at 1-877-834-3876

CHGQIW

CHGQIB

Supplied Hardware

Charger

The charger comes with a 2m long USB cable, ready to plug into a transformer, computer, or hub.

AC Power adapter
Output: DC 5V, 2A

Steel Plate

The plate clamps the charger to the desk

Wood screws

For added security

Bolts

8 different length bolts to secure charger to a range of work top thicknesses (18mm - 50mm)

Spacers

Spacers may need to be used with the bolt for certain desk thicknesses

Allen key

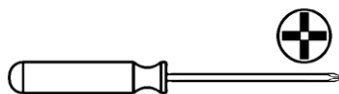

To tighten the bolt

Cable clips

Use adhesive cable clips to tidy the power cable to the underside of the work surface

Tools required

1

Fit the charger in to 80mm hole in the work surface

2

Secure the charger with the steel plate provided, using the appropriate length bolt (use 16mm bolt for standard 1" surface) -use wood screws for extra security

3

Plug USB cable into power source and charger will be ready to charge devices when placed on top
